Neber rearrangement

The base-induced rearrangement of *O*-acylated ketoximes to the corresponding α -amino ketones is known as the *Neber rearrangement*.

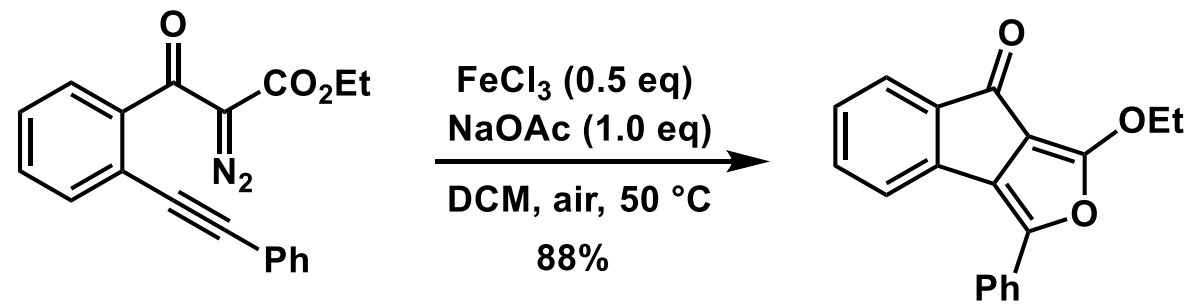

Neber rearrangement of *O*-acylated ketoximes:

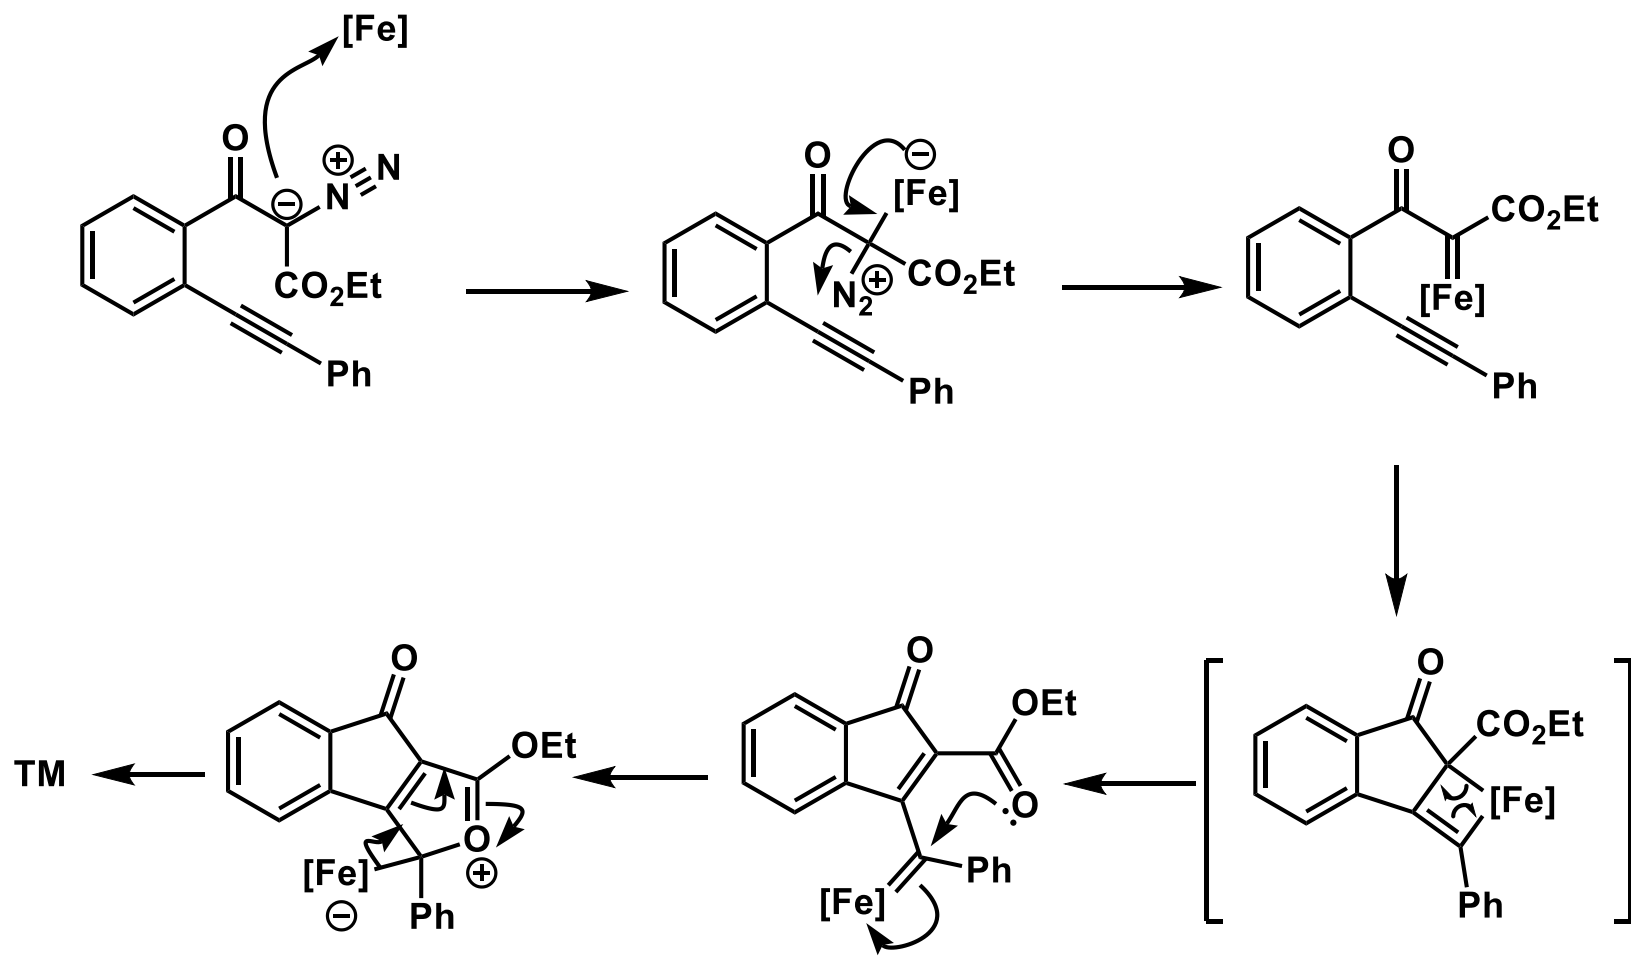

R¹ = H, alkyl, aryl; R² = alkyl, aryl, O-alkyl, NH₂, NH-alkyl; R³ = SO₂C₆H₄CH₃, SO₂CH₃; base: NaOEt, KOEt
